# Body, Heart & Soul.

*An interactive art installation that will transform and traverse through Marina Central district*

Four magical cubes will bring you into an illusory world of reflections and colour. Designed by Dr Jason Lim of Singapore University of Technology and Design and Ar Asami Takahashi of YUME Architects, *Body, Heart & Soul* applies art and technology in playful ways to create memorable experiences at Marina Central.

Each cube can sense human presence and you can interact and experience the art installation in exciting new ways at different locations:

**Marina Square:** March – May 2022

**Millenia Walk:** May – July 2022

**South Beach:** July – September 2022

**Suntec City:** September – November 2022

Check out retail promotions and fun workshops for all ages at [marinacentral.com.sg](http://marinacentral.com.sg)

A district collaboration:

**MARINA: SQUARE**
